## Professional Experience

### Frontend Developer at EY (02/2022 - 05/2025)

Contributed to a large-scale financial SPA for UK banking client

- Built and debugged responsive, reusable SPA components with React, TypeScript, CSS3 and Storybook, following S.O.L.I.D. and DRY principles
- Enhanced code quality through refactoring, unit testing, code review, accessibility compliance, prioritizing clean and maintainable code
- Collaborated daily with different teams in team activities using Jira and Agile/Scrum development methodologies across different time zones, demonstrating strong verbal and written communication skills
- Gained exposure to a micro-service architecture and custom validation libraries within a large-scale enterprise environment

**Tech stack:** React, TypeScript, JavaScript, CSS, JSON, Redux Toolkit, Storybook, Jest, React Testing Library, Jenkins, Kibana, ES Lint, Agile/Scrum, Jira, Git, GitHub, pnpm

### Frontend Developer at Intelligent Betting Software (11/2020 - 08/2021)

Contributed to a localized and full responsive back-office betting platform

- Built, debugged and refactored responsive, reusable components and dynamic SPA with Angular, TypeScript, RxJS, Angular Material, PrimeNG, CSS3 and SCSS, ensuring cross-browser compatibility
- Integrate REST APIs and implemented Transloco i18n for multi-language support
- Mentored beginner team members on Angular fundamentals and CSS best practices, improving team output and fostering knowledge sharing

**Tech stack:** Angular, TypeScript, JavaScript, RxJS, REST APIs, JSON, PrimeNG, Angular Material, HTML5, CSS3, SASS, Transloco i18n, Redmine, Git, Bitbucket, npm

### Web Development Training & Personal Projects (08/2018 - 10/2020)

- Developed responsive, pixel-perfect websites using HTML5, CSS3, SCSS, SVG, CSS Grid and Flexbox, SEO, PHP, MySQL, BEM Methodology and DRY principle
- Developed a CRUD application using PHP with an MVC architecture & MySQL database, demonstrating initiative and full-project ownership

**Tech stack:** HTML5, CSS3, CSS Grid & Flexbox, SASS, SVG, SEO, PHP, MySQL, Git

### Intern at Studio 77 Web Design Agency (04/2019 - 07/2019)

- Implemented Technical and On-page / Off-page SEO (performing in-depth keyword research, optimizing meta descriptions and titles, implementing schema markup, using internal and external links, optimizing images, etc.) to optimize website content and improve search engine rankings, providing foundational and hands-on SEO experience

**Tech stack:** SEO, HTML, CSS, CSS Flexbox

## Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS/SCSS
- **Frameworks & Libraries:** React, Angular, Angular Material, Storybook, PrimeNG
- **Testing:** Jest, React Testing Library, Vitest
- **Tools & Concepts:** Git, GitHub, Bitbucket, Vite, SEO, REST APIs, npm, pnpm, CI/CD (Jenkins and Kibana logs), Agile/Scrum, Jira

## Languages

- **English:** Professional working proficiency, both written and spoken
- **Serbian:** Native
