SUMMARY

Frontend Developer (4+ years) specializing in React and Angular, with a strong foundation in TypeScript and component-driven development. Experienced in delivering enterprise-grade solutions for international clients in Agile environments. This experience allowed me to strengthen my pro-activity and assertive approach and successfully apply them to all project development stages - from idealization, planning, execution, monitoring and control to closure. I deliver excellent communication, teamwork and time-management with different team members across different time zones.

Frontend Developer at EY Technology Consulting (2022-2025)

Working as a React developer, I've been a member of multiple teams involved in building complex IFA (Independent Financial Adviser) web application for buying insurance for a UK based banking client

- Develop and maintain SPA responsive UI standalone and reusable components
- Implement and refactor React, TypeScript, JavaScript, CSS, SVG, unit tests (Jest, Vitest and RTL) created with CRA or Vite by S.O.L.I.D. and DRY principles
- Write clean, scalable, maintainable, testable, and well-documented code
- Participate in team activities: daily meetings, code and design reviews
- Collaborate with large teams within Agile/Scrum development methodologies

Tech stack: React / TypeScript / JavaScript / Material UI / Jest / RTL / ES Lint / InVision / JSX / CSS3 / Git / GitHub / CI/CD / Accessibility / pnpm

Frontend Developer at Intelligent Betting Software (2020-2021)

As a Junior Angular developer, I've successfully deployed an in-house platform, leveraging cutting-edge technologies to create dynamic, responsive, and localized web application for betting back-office management.

- Develop and maintain responsive UI standalone and reusable components
- Implement and refactor Angular, TypeScript, JavaScript, HTML5, SVG, SCSS, Angular Material and PrimeNG components with utility classes
- Ensure cross-browser compatibility and responsiveness
- Deploy interactive web application

Tech stack: Angular / TypeScript / REST APIs / PrimeNG / Angular Material / SASS / CSS3 / HTML5 / Transloco i18n / Git / Bitbucket / npm

Certicications

- Advanced Javascript
- Advanced CSS and Sass: Flexbox, Grid, Animations and More!
- React Testing Library with Jest / Vitest

More certifications available here.

EDUCATION

Electrotechnical School "Rade Končar" (High school)
